**Notes:**

1. This program is designed for students who have completed their BEng degree in Chemical Engineering.
2. Students are required to complete a total of 180 credits, including 72 credits in specific courses.
3. Students are encouraged to take electives in areas of their interest to enhance their career prospects.
4. Students should consult with their academic advisors to plan their course of study.
5. The program requires a minimum of 60 credits in core courses.
6. Students are required to complete a minimum of 48 credits in elective courses.
7. Students are encouraged to take at least 24 credits in areas outside of their major.
8. Students are required to complete a total of 12 credits in language courses.
9. Students are required to complete a minimum of 36 credits in core courses.
10. Students are required to complete a minimum of 48 credits in elective courses.
11. Students are required to complete a minimum of 24 credits in areas outside of their major.
12. Students are required to complete a total of 12 credits in language courses.
